

Crestwood Teens 2010: FLYING THE GREAT LAKES

Crestwood's Teen Program has always been considered a unique program with spectacular events and trips. From California in '94, to the Olympics in '96, to Florida in '00 & '03 & '07, to the 9 day Great Lakes Tour in '05, Crestwood Teens are always looking to top our already long list of extraordinary trips. In 2010, that will be accomplished with our next amazing 5 day trip: "FLYING THE GREAT LAKES."

In August, Teens who sign up for the "plus" program will travel on a 5 day extravaganza to **CHICAGO AND THE WISCONSIN DELLS**. Teens will fly out of New York and start the trip in the "Windy City." Teens will explore the unique

Millennium Park and the **Magnificent Mile**, while having plenty of time to do the activities on the **NAVY PIER**. Teens will be able to go to the beach on Lake Michigan, as well as see the entire city from the **Willis Tower (formerly know as the Sears Tower)**. Dining will include the famous **PORTILLO's** and **Ed Debevic's** where Teens will be entertained by dancing and sassy waitresses. A tour of **Northwestern University** and the **Museum of Science and Industry** will peak the teens' interests. Depending on the baseball schedule, a **White Sox or Cubs** game may be arranged. After our time in

Chicago, Teens head to the **WISCONSIN DELLS** to stay at the magnificent **Kalahari Hotel**. This resort has both an indoor and outdoor water park on the hotel grounds. Teens will try to escape from **Wizard Quest** and explore the scientific wonders of **The Exploratory** before seeing the incredible **Tommy Bartlett Show**, a daredevil water-ski show on Lake Delton. Teens will also visit **Big Chief Mount Olympus**, where they can go on unique rides, go-kart courses and coasters, including *Zeus's Playground*. Our Teens will also enjoy **Noah's Ark**, the largest water park in the world. It is the home of **Black Anaconda**, the largest and fastest water roller coaster in the world! Teens then return home with memories to last a lifetime!
